DETAILED ACTION

1. This action is responsive to communications: Original Application, filed 23 October 2003.
2. Claims 1-56 are pending. Claims 1, 14, 24, 34, 42, and 51 are independent claims.

Election/Restrictions

3. This application contains claims directed to the following distinct species:

Species I – claims 8, 10-13, 19, 21-23, 29, 31-33, 39, 41, 43-49, and 55-56,
drawn to class **715/511**, version management.

Species II – claims 2-5, 7, 9, 15-16, 18, 20, 25-26, 28, 30, 35-36, 38, 40, 50,
and 52-54, drawn to class **715/530**, edit, composition, or storage control.

Species III – claims 6, 17, 27, and 37, drawn to class **715/700**, operator
interface.

Art Unit: 2176

4. The species are independent or distinct because Species I is substantially drawn to version management. Species II is substantially drawn to edit, composition and storage control. Species III is substantially drawn to operator interface.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. **Currently, independent claims 1, 14, 24, 34, 42, and 51 are generic – class 715/511.**

6. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

7. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
